MY PROFILE:

PREVIOUS DESIGNATION

Software Engineer at Bank of America

VOLUNTEER INTERNSHIP

Digitus lab

CURRENT LOCATION

Mumbai,Maharashtra

YEARS OF EXPERIENCE

9+ Years

RESUME HEADLINE

Senior Frontend Developer | Full Stack Developer | Angular, React , Java & Spring Boot | 9+ Years Experience | Google Cloud Certified | Banking & Enterprise Services | Team Lead

CAREER OBJECTIVE

To pursue excellence and perfection by contributing effective skills which offers professional growth While being resourceful, innovative and flexible, possessing competent technical skills.

CERTIFICATE

Google Cloud Certified Associate Cloud Engineer – Dec 2023

ABOUT ME:

Frontend-focused Full Stack Developer with strong expertise in Angular and extensive experience building scalable, responsive, and enterprise-grade web applications. Proficient in React and Next.js with hands-on experience in modern frontend development, state management, UI architecture, and application modernization. Additionally experienced in backend development using Java, Spring Boot, microservices, RESTful APIs, and database-driven applications. Google Cloud Certified Associate Cloud Engineer with growing expertise in cloud-native and AI-powered applications.

SKILL SET:

PROGRAMMING AND SCRIPTING LANGUAGES

HTML5, CSS3, JQuery, Javascript, Angular 2-21 , React JS, Redux, Material JS, Rxjs,Typescript,Bootstrap,Java, SpringBoot, , Next JS, Admin JS,

BUILD AND DEPLOYMENT TECHNOLOGIES

Webpack

INTEGRATED DEVELOPMENT ENVIRONMENT

Eclipse, Visual studio code, IntelliJ

DATABASE

Mysql,Postgress

OPERATING SYSTEMS

Windows

WORK EXPERIENCE:

PROJECT NAME	TECHNOLOGY	ROLE	COMPANY	DURATION
Fiduciary Dashboard	Angular 10, Redux	Developer	Bank of America	Nov,19 – May,22
Control Panel	HTML5, CSS3, Angular8, JavaScript, JQuery	Developer	Bank of America	Aug,18 – Sept,19
FDL	Angular 5 and Bootstrap 4 along with using SAAS pre-compiler for scss, Java, SpringBoot	Team Lead	TCS	Jan,18– Aug,18
ITRAX	Angular 4, Material JS Ionic.	Developer	TCS	Aug,17– Dec,17
SourceNow	Backbone JS, Bootstrap JS, React JS, HTML	Developer	TCS	Jun, 15 – July, 17

Professional Sabbatical & Skill Development | May 2022 – Present

Parental Leave | June 2025 – Present

- Took a planned maternity leave to focus on family responsibilities.
- Upskilled in Angular 21, modern frontend development practices, and full-stack technologies.
- Developed personal projects using Angular 21, Java, and Spring Boot to maintain hands-on technical expertise and stay aligned with current industry trends.

Volunteering Experience | June 2022 –May 2025

PROJECT NAME	: Geet Ganga
TEAM SIZE	: 4+
DESCRIPTION	: This is a web application which is gateway to rich tapestry of patriotic and inspirational music, encompassing an incredible diversity of over 14 Indian language.
RESPOSIBILITIES	: • Researched and selected optimal technologies (TypeORM, MySQL, Admin JS, Next JS, Nest JS) for website revamp, focusing on performance and scalability improvement • Used Next JS version 13.4.5 to developed front end with the help of React JS and material UI. Used Google Analytics to track site users and to get valuable insights like how user interact with websites. • Worked on creating and integrating web API in Nest JS. • Created Admin JS panel to have better user interface for creating and updating data. I have also created custom component in Admin JS

PROJECT NAME	: InsightDocs
TEAM SIZE	: 4+
DESCRIPTION	: The InsightDocs is an AI-powered document assistant enabling users to query multiple PDFs using natural language, leveraging LLM-based retrieval and response generation. Through natural language queries, users can obtain relevant responses based on the content of the PDFs loaded into the application. It leverages a language model to provide accurate answers, limiting responses to questions pertinent to the loaded documents.

PROJECT NAME	: ACME HR Assistant
TEAM SIZE	: 3+
DESCRIPTION	: Built an end-to-end RAG (Retrieval-Augmented Generation) chatbot in Python to answer HR policy queries, reducing repetitive manual lookups for the HR team
RESPOSIBILITIES	: - Designed a document ingestion pipeline that chunks and embeds HR policy text using OpenAI embeddings, stored in a local ChromaDB vector database for fast semantic search - Implemented a retrieval system using cosine similarity search to surface the most relevant policy excerpts for each user query. - Integrated OpenAI's GPT model to generate accurate, context-grounded, and human-toned responses, minimizing hallucination by restricting answers to retrieved source content - Built an interactive Streamlit chat interface with session history, source citations, and an expandable view of retrieved context for transparency - Designed the system to be easily extensible — new policy documents can be added and re-indexed without disrupting existing data

PROJECT NAME	: Inventory & Sales Management System
TEAM SIZE	: 4+
DESCRIPTION	: Developed and maintained a web-based Inventory & Sales Management System that helps businesses manage customers, products, inventory, sales, payments, and financial records. The application streamlines the complete sales lifecycle, from customer management to inventory tracking and ledger maintenance
RESPOSIBILITIES	: - Developed responsive web applications using React, building reusable UI components and integrating REST APIs. - Designed and implemented backend services using Java, Spring Boot, MySQL for customer, inventory, and sales management. - Developed CRUD operations, search, filtering, pagination, and business validation features. - Collaborated in an Agile environment, performed code reviews, resolved production issues, and optimized application performance.

PROJECT NAME	: CMS
TEAM SIZE	: 4+
DESCRIPTION	: Developed and maintained a web-based Marine Management System . The application enabled efficient management of marine-related operations by providing centralized workflows, secure user access, and automated business processes.
RESPOSIBILITIES	: - Developed responsive user interfaces using React, building reusable components for Vendor, Product, Technical Job, Purchase Order, Invoice, and Resume Management modules. - Designed and implemented RESTful APIs using Java, Spring Boot and MySQL, integrating frontend modules with backend services and implementing business validations.

Skill Development & Certification | Dec 2022

- Earned Google Cloud Associate Cloud Engineer certification.

PROJECT DETAILS:

PROJECT NAME	:	FEDUCIARY DASHBOARD
TEAM SIZE	:	5+
DESCRIPTION	:	This is a Platform for Advisors. It is used for Portfolio Management.
RESPOSIBILITIES	:	• Led migration from Angular 8 to Angular 10 for a platform used by 5,000+ advisors. • Reduced API response wait time by 25% through frontend caching and state management improvements. • Improved application load time by 35% through Angular optimization and lazy loading • Worked on creating and integrating Web API in asp.net. • Usage of latest technologies like Angular 10, Bootstrap, Angular Kendo UI, Redux

PROJECT NAME	:	CONTROL PANEL
TEAM SIZE	:	5+
DESCRIPTION	:	Control Panel Application is responsible for managing multiple sub application related to enrolment and supervision of Account.
RESPOSIBILITIES	:	• Key responsibility in learning and researching new technology, setting up project from scratch including creation of project base structure and developing style guide. • Doing upgradation of application in latest JQuery version. • Create new Functionality/Project in Angular 6/7 from scratch and demonstrate to Product Owner like Progressive web app, SourceMap , Lazy Loading and Angular Element. • POC and R&D 1. Swagger 2. Teamcity 3. Stackblitz 4. React + Redux 5. React + backbone • I have also knowledge on version source control like git and also demonstrate on sourcetree. I have create Project which uses Drag and Drop feature of Angular 7 Material.

PROJECT NAME	:	FDL
TEAM SIZE	:	5+
DESCRIPTION	:	Project involved integration of multiple applications build by different teams into single application to provide a consolidated picture to multiple stakeholders.
RESPOSIBILITIES	:	As a Team Lead of the FDL UI team, I was responsible for the following tasks - • Brainstorming with the Client and functional team on different project requirements • Setting up project from scratch including creation of project base structure and developing style guide according to requirement. • Delegating tasks in the team with alignment on deadlines • Coming up solutions to Technical challenges faced by the team • Usage of latest technologies like Angular 5 and Bootstrap 4 along with using SAAS pre-compiler for scss

PROJECT NAME	: ITRAX
TEAM SIZE	: 7+
DESCRIPTION	: Project involved developing an app for Desktop & Mobile to track order/shipment of products from different location in real time.
RESPOSIBILITIES	• Developing Web app and Ionic App for Desktop and Mobile respectively. • Enhancing the pre-existing Mobile application to improve stabilisation • Usage of latest technologies like Angular 4 and Material JS along with using SAAS pre-compiler for scss for Desktop • Usage of ionic and Angular 4 for Mobile.

PROJECT NAME	: SOURCENOW
TEAM SIZE	: 5+
DESCRIPTION	: The project involved developing a web app to enable interaction of consumer and supplier on RFx.
RESPOSIBILITIES	As a Team Member of the Sourcenow UI Team, I was responsible for the following tasks– • Developing Web app for Admin as well as Buyer/Supplier • Incorporating features like One to One chat, Group Chat, Notification, Creation and buying of RFx • Usage of technologies like Backbone JS, Bootstrap JS, React JS, HTML SCSS using SAAS pre-compiler. • Developing Admin app module single-handedly using Angular 2/4.

EDUCATION :

EDUCATION	STREAM	UNIVERSITY/BOARD	SCHOOL/COLLEGE	YEAR OF PASSING	PERCENTILE (10)
BACHELOR OF ENGINEERING	Computer Technology	R.T.M. Nagpur University	YCCE College	June,2015	8.2

ACHIEVEMENTS:

- Awarded with Silver Award for my Performance on Nov 2021.
- Awarded with Bronze Award for my Performance on Nov 2020.
- Awarded with Silver Award for my Performance on Nov 2019.
- Awarded as Best Technology Adapter on March 2017.
- Awarded as Best Team for SourceNow project Feb 2017.
- Awarded as Best team for “WMSA” project on March 2015

EXTRA-CURRICULAR ACTIVITIES:

- Organizing and Managing all Team activities.
- Member of Fun at work Team in TCS
- Participate in various Event like Wakhathon, Box Cricket etc.

DECLARATION:

I do hereby declare that the above information is true to the best of my knowledge and belief.
